Each and every Alco Pen is honestly and expertly made to deliver a long life of efficient writing service. These beautiful pens will not only increase your pen business right now but during the Fall activity of general business they will insure you many pen profits that you would otherwise miss.

For your convenience we are enclosing a self-addressed Order Blank. Send it in TODAY and cash in on this most extraordinary pen offer!

Yours very truly,

Aikin-Lambert Co.

**ALCO PENS
ARE PERFECT WRITING
INSTRUMENTS!**

*A*LCO PENS are honestly and expertly built—and from the very finest materials—by a firm that has specialized in fine pen making since 1864.

Every Alco Pen will be found a perfect writing instrument in every particular.

For instance, the sturdy, smooth-writing 14-kt. gold pen points are tempered and ground by experts and tipped with the finest grade of iridium.

The ink is delivered to the point in a constantly controlled flow and is available until the very last drop is used up.

The self-filling device fills the extra large ink reservoir completely, cleanly and quickly.

The grip section is scientifically shaped to insure writing comfort.

The threads inside the cap match perfectly the threads on the holder and thus assure a snug fit.

The clip is riveted attached and prevents pen from rolling off desk or falling out of pocket.

Alco Pens need no "breaking in." They write perfectly from the start and will continue to do so for many years.

We have some unusually liberal propositions for live dealers. Write to us today! Your inquiry will receive our immediate attention.
